

Safety

Sounds Connection makes every effort to ensure the safety of our guests and staff.

Our vessel fleet complies with all Maritime New Zealand requirements for passenger vessels and all vessels are independently surveyed through a strict accreditation process. Our skipper holds the relevant qualifications for operating our vessel *MV Tory*.

Our land-based fleet complies with Land Transport requirements for passenger vehicles with all vehicles undergoing a 6-monthly safety check through independent testing. All vehicle staff hold the appropriate licences and passenger endorsements.

Throughout the company, the health and safety of passengers and staff is taken seriously. We have company policies for vessel and vehicle staff with ongoing training and awareness programmes in place.

Our fleet – from boats to vehicles – is regularly serviced and offers optimal safety features.

We gain feedback from guests and staff and seek to make changes where practicable.

We keep up to date on the latest safety regulations and advice to ensure we follow best practice.
